

Take your life in
your own hands
and what happens?
A terrible thing:
no one to blame.

1

If you think you
can, you're right.
And if you think
you can't, you're
right.

2

I am not young
enough to know
everything.

3

To educate is
not to fill up a vase
but to light a fire.

4

Live as if you
were to die
tomorrow.
Learn as if you
were to live
forever.

5

In times of change
learners inherit
the earth;
while the learned find
themselves beautifully
equipped to deal with
a world that no
longer exists.

6

It is what we
know already
that often
prevents us from
learning.

7

You have learnt
something.
That always feels
at first as if you
have lost
something.

8

Teaching is only demonstrating that it is possible.
Learning is making it possible for yourself.

9

Learning is not compulsory...
Neither is survival.

10

You are a product of your learning.
Everything you know, everything you can do and everything you believe, you have learnt.

11

All thinking and learning takes place in a context. The mind always seeks context in order to create meaning.

12

We learn more by looking for the answer to a question and not finding it than we do from learning the answer itself.

13

He who learns but does not think is lost! He who thinks but does not learn is in great danger.

14

Change is the end result of all true learning.

15

Experience is not what happens to you; it is what you do with what happens to you.
