CORE – “assessing COmpetences for REintegration”

Youth unemployment rate is still very high in some parts of Europe, especially in countries of the Balkan region where many young adults aged 16 to 24 are neither in employment nor in education or training (NEETs).

It is essential for these people to find a way (back) into **education and/or employment** quickly to prevent negative long-term consequences.

This can be supported by gaining **awareness of their own competences**, which often were acquired outside of the educational system, and recognizing these competences.

The Competencies Passport / the ProfilPASS / Pasos kompetencija

Let's try it out!

1. Access the [ProfilPASS – kickstart your career!](#) (for young NEET adults)
2. Familiarize yourself with its structure
3. Dive into an activity field
4. Demonstrate a short counseling sequence
